FACTORY OF TYER RUBBER COMPANY, ANDOVER, MASS., U. S. A.

This business was founded in the year 1856 by the late HENRY GEORGE TYER, the inventor and patentee of the White Rubber, now universally used in the manufacture of Druggists' Rubber Goods.

Incorporated as the Tyer Rubber Company, 1876.

PERSONAL  
TO OUR CUSTOMERS AND THE TRADE

We take pleasure in presenting this new catalogue of **"TYRIAN" RUBBER GOODS**. We have made it in your interest and for your service, and feel sure you will find it clear and concise, yet complete. By far the largest and best ever issued it is an index to our extensive and increasing business which has grown to its present proportions, as so many of you, our friends, have built up your own business, through personal care and oversight.

Our new factory not only increased our facilities for making the highest quality of goods in our line, but enabled us to add to the comfort and help of our employees, who, with us, take pride in our business home.

It is a pleasure to show you on the following pages, views of some of the rooms where **"TYRIAN" RUBBER GOODS** are manufactured, and we should esteem it a further privilege at any future time, to show you through the factory itself.

We thank you for past favors; our personal aim shall be to merit a continuance of the same.

**TYER RUBBER COMPANY,**

## THE ORIGINAL FAIRBANKS' FOUNTAIN SYRINGE, "IMPROVED"

WITH SIX HARD RUBBER PIPES

POLISHED WOODEN BOX

This Syringe is handsomely cased in a Polished Wooden Box, lined throughout with white glazed paper, and the pipes are held in place by a nickel rack. This adds greatly to the appearance and renders the Syringe by far the most attractive ever offered.

## TYRIAN COMBINATION FOUNTAIN SYRINGE AND HOT WATER BOTTLE

### With Our Patent Globe Spray Vaginal Pipe

We have made a marked improvement in this, our well known Combination Fountain Syringe, by substituting our patent GLOBE SPRAY VAGINAL PIPE in place of the regular Bent Vaginal. We also use the five-sixteenth's inch tubing, thus giving the rapid flow.

## TYRIAN RAPID REFLOW FOUNTAIN SYRINGE

### With the Globe Spray Vaginal Pipe

The reflow attachment consists of a cone shaped shell which fits and closes the mouth of the vaginal. The Globe Spray Pipe passes through this shell. The end of the cone is recessed, collecting the fluid and allowing it to pass off through the outlet pipe. The syringe is put up with heavy bag and rapid flow tubing.

## THE ADVANTAGES OF THE GLOBE SPRAY VAGINAL PIPE

(Patented Aug. 31, 1897)

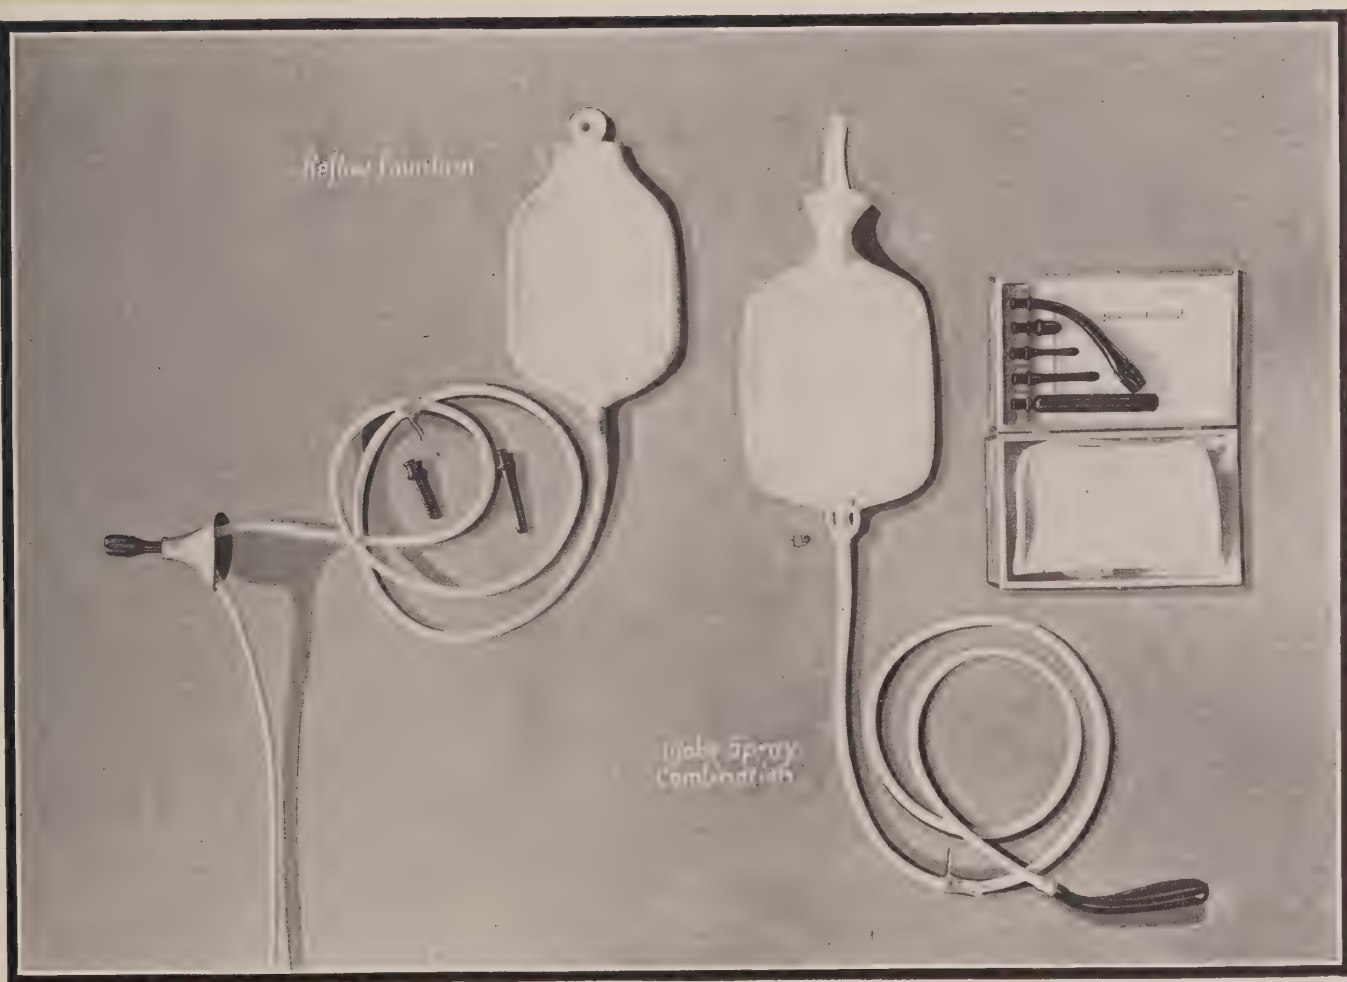

### As Used on the Tyrian Globe Spray Syringes

Physicians have long desired a vaginal pipe, which, while throwing a large volume of water for flushing the vagina, should yet be so adjusted as to lessen the force with which the fluid is injected and prevent the stream from assuming a dangerous course.

### The Globe Spray Vaginal Pipe

Is a hard rubber tube similar in appearance but slightly larger than the ordinary bent vaginal pipe. Instead, however, of having a number of outlet holes in the corrugated sides for the liquid, it has but one outlet, a circular one at the end of the pipe. By a simple but highly satisfactory arrangement in the interior of the pipe, the liquid is thrown from this circular opening against the walls of the vagina in a *globular shaped spray* which strikes every side of the canal with an even, gentle pressure. The vaginal passage can thus be thoroughly cleansed and any diseased portion readily treated by medicated injections.

## TYRIAN COMBINATION BEDPAN No. 4

WITH SLEEVE OUTLET

As shown in illustration, instead of an outlet tube, the lower part of the Bed Pan is formed into a funnel shaped outlet sleeve. The advantage of this, over the tube is at once manifest. By means of the hook the sleeve can be fastened up, making a bag of the sleeve, which will hold the contents of the Pan, so that the Pan can be removed by the handle at the top.

Price . . . . . Per dozen, \$63 00

## THE IMPROVED OBSTETRICAL CUSHIONS

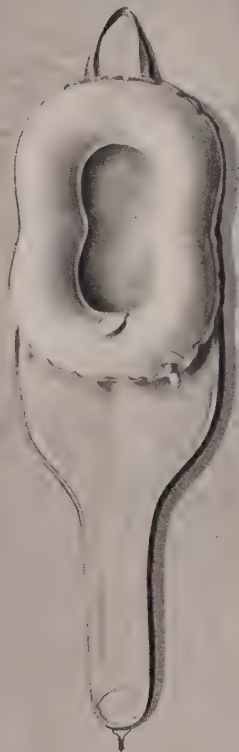

WITH SLEEVE

The *improved* obstetrical pan has the flap made into a sleeve which can be hooked to the upper part of the cushion, thus making a bag to hold the liquid. In other respects same as the regular obstetrical cushion.

## TYRIAN TUBING

### MACHINE MADE TUBING

We have this either smooth or corrugated, and in three grades.

NIOTUS. Our best, a very soft, flexible tubing, made of the best white compound, and surpassed by none in the market.

SHAWSHEEN. A medium grade tubing.

PARA. A low priced article.

We put our tubing in round pasteboard boxes containing 50 feet each.
